Introduction

With a FortiCare account, you can receive a free trial license for a FortiAnalyzer virtual machine (VM) to let you try the product.

This section includes the following topics:

- [Requirements on page 5](#)
- [Licensing on page 5](#)

Requirements

The following items are required before you can receive a free trial license for FortiAnalyzer VM:

- FortiCare account with Fortinet Technical Support
The FortiCare account includes a free trial license for a FortiAnalyzer VM.
- FortiCloud account
The FortiCloud account lets you access the FortiCloud portal and your FortiCare account on the Fortinet Technical Support site (<https://support.fortinet.com/>). The FortiCloud account is used to complete the licensing process. If you do not have a FortiCloud account, you can create one as part of the licensing process.
- FortiAnalyzer VM
You must be running FortiAnalyzer 7.0.0 on the VM.
- Browser
You must have access to a device with a browser to access FortiAnalyzer GUI.
- Internet access
You must have Internet access to access FortiCloud and your FortiCare account on the Technical Support Site and to receive the license agreement.
- License agreement
You must accept the terms of the license agreement before you can activate the trial license.

Licensing

A FortiCare account includes one limited, free trial license for FortiAnalyzer VM.

The trial license includes:

- Support to add three devices
- Support to use two ADOMs
- Support for 1 GB/day of logs

The trial license does not include access to Fortinet services or Technical Support for the FortiAnalyzer VM with the free trial license.

If the FortiCare account already has an activated, free trial license, you cannot register a second free trial license.

Activating a free trial of FortiAnalyzer VM

You can use the FortiAnalyzer GUI to request and activate a trial license for a FortiAnalyzer VM.

After the trial license is activated, please see the [FortiAnalyzer 7.0.0 Administration Guide](#) on the [Document Library](#) for information about the product.

To request and activate a trial license:

1. In a browser, access the IP address for the FortiAnalyzer GUI.
The login dialog box is displayed.

The image shows a login dialog box for FortiAnalyzer-VM64. At the top, the title "FortiAnalyzer-VM64" is displayed in a large blue font. Below the title, a message states: "This product requires a valid license. You could log in to FortiCloud to activate your purchased license, or use a free trial license." There are two input fields: the first is labeled "Account ID/Email" with a user icon, and the second is labeled "Password" with a lock icon. Below these fields are two radio buttons: "Free Trial" (which is selected) and "Activate License". A prominent blue button labeled "Login with FortiCloud" is positioned below the radio buttons. A horizontal line with the word "OR" in the center separates this from a gray button labeled "Register with FortiCloud". At the bottom of the dialog, there is a blue link labeled "Upload license".

2. Select *Free Trial*, and click *Login with FortiCloud*.
If you do not have a FortiCloud account, click *Register with FortiCloud* to create one.
The *Free Trial License Agreement* is displayed.
